

ANNIVERSARY

Democratic Design.

Sixty years ago, we set out the vision of producing quality and accessible products that are well-designed, unique, and understand the needs correctly. Tilia's most significant motivation in this journey is the ability to respond to real needs in the flow of life while having the principle of reflecting the importance we attach to nature, people, and being good in every area.

Today, Tilia places the “**democratic design**” principle to its core values. With that, we aim to make thought-through, contemporary designs accessible to every design lover with materials that are sustainable for our world.
